The old town of Bern is a UNESCO world heritage site as are the Bernese Alps (Swiss Alps Jungfrau-Aletsch). Hence, many tourists visit Bern throughout the year and especially in summer. Transport

Switzerland has a very decent public transport system. Bern has excellent national and international train connections (https://www.sbb.ch/en/home.html). The railway station is located in the city centre. The local public transport system of Bern is also very comfortable (BernMobil (only German) or www.sbb.ch (also in English)). Bus line 20 brings you to the venue (Fabrikstrasse 6, 3012 Bern; stop “Länggasse”). In all hotels in the city of Bern the room rate includes the Bern Ticket, with which visitors can use the local public transport system of the city of Bern for free (zones 100 and 101).

In Bern you can also rent public bicycles and e-bikes at many locations throughout the city for single rides (https://www.publibike.ch/en/publibike/).

Participants who have to take the airplane preferably choose to fly to Zurich Airport, because the train connection to Bern is excellent (direct connection with about 1-hour travel time). Other nearby airports are Basel and Geneva.
Venue

The venue of the workshop is the Campus vonRoll of the University of Bern, Fabrikstrasse 6, 3012 Bern, room 001 (Bus 20, stop “Länggasse”). The campus is located at the west end of the “University District” Länggasse (see map below). Building number 6 is the one next to the big building nr. 8 (see below).
For your orientation at the Hochschulzentrum vonRoll, please also consult the building plans.
